

FLAMINGO FLOCKING INSURANCE

Are you tired of those pesky pink birds squatting on your lawn? Are you losing sleep at night wondering if the pink parade is going to be parked in your yard? Let us put your mind at ease. By purchasing a Pink Protection Policy from Flamingo Flocking Insurance, we can guarantee any future flocking attempts on your yard will be denied.

Pink Protection Policy Premium: \$75

This amount is to be paid by the insured for one calendar year of protection. The covered year will begin on the date the completed application and payment is received. If a flocking has already been scheduled on your yard prior to the purchase of flocking insurance, your covered year will begin on the day the flock is removed from your yard.

Pink Protection Policy Copayment: \$15

During your covered year, if your yard is targeted for a flocking, you will receive an invoice in the mail informing you of the averted disaster. You will be asked to pay a copay with each denied flocking. You can trust that if someone targets your yard and we inform them of your insurance policy, they will not be permitted to target your yard any further. In other words, you will only pay one \$10 copay per person trying to flock your yard.

Disclaimer

Your Pink Protection Policy from Flamingo Flocking Insurance will only protect you from the plastic yard flamingos owned and managed by the Greeneville Cumberland Presbyterian Church Youth Group. This policy cannot protect you from yard flamingos owned and/or managed by another individual or group, nor will it protect you from actual living, breathing flamingos, geese, pigeons, chickens or any other birds. After repeated attempts to partner with a flock of live birds, negotiations fell through as most birds are terribly hard to reason with. Greeneville Cumberland Presbyterian Church Youth Group cannot be held accountable for the actions of any birds except the flock of plastic yard flamingos they own and manage.
